Readers Write

I was more than somewhat surprised to see reference to the Old Dominion Foundation in Craig Chases's article "Funds for Environmental Programs" in the winter issue of EE. This may very well mislead some readers; the Old Dominion Foundation ceased to exist in June 1969 when it merged with the Avalon Foundation. The result of this was the creation of The Andrew W. Mellon Foundation. It may be that Professor Chase's article was written sometime ago and just now printed, but surely an update was called for. A well prepared article on fund-raising procedures, guidelines for proposals, and a check-list of do's and don't's would seem to be very much in order. Perhaps this could appear in a coming issue.--RICHARD A. MADIGAN, Executive Director, Wave Hill Center for Environmental Studies, Bronx, New York.
